

# Got a question about breastfeeding and medication?

- Unsure whether a mother can continue breastfeeding while taking medication?
- Does the leaflet in the box of tablets say they can't be taken if the mother is breastfeeding?

**Use the BfN Drugs in Breastmilk Info service - Evidence-based information from our small team of experienced, specialist pharmacists. Peer supporters also available who can support breastfeeding, pumping or stopping if needed.**

**Find more than 50 factsheets covering the most common issues affecting mums:**
